The human side of cleaning

DURASTEAM 22

Clean in a cloud of steam.

Hotel facilities, pharmaceutical companies and food manufacturers have a specific and very demanding hygienic and sanitary need. They are environments which must conform to HACCP regulations. Typically these places are sanitized with specialised chemical detergents.

With DURASTEAM 22 the use of chemicals is avoided as the high temperature of the steam generated allows you to effectively clean the environment with a minimal amount of water.

APPLICATIONS

HEALTHCARE

HOTEL

WELLNESS & SPORT

INDUSTRIAL

VACUUM
TYPE
Steam

BOILER
CAPACITY
22 L

HOW IT WORKS

Ergonomic handle

For a secure grip and easy transport of the machine.

Dual function

steam cleaner integrated with a wet and dry vacuum cleaner.

Cable holder hook

integrated on the body to store the power cable.

Stainless steel boiler

robust with integrated resistance thermometer.

Tank trolley

to contain the cleaning product.

Rapid heating

ready to use in minutes.

Warning lights

The lights indicate when the steam is ready and when it is necessary to refill the water.

4 wheels

With integrated charge indicator.
Simple to use without any training.

Double function.

Once the temperature of 140 ° C is reached inside the boiler, the cleaning and sanitising of hard surfaces and fabrics with the steam gun is easily done. This process gets rid of grease, grime and dirt in general without producing any dust.

Customized for you.

The Durasteam 22 and its accessories are very effective for cleaning hard-to-reach spaces. The DURASTEAM 22 has 16 different accessories inside the package. These are ideal for a wide range of cleaning functions.

22 PLUS

The extra strength you were looking for.

In addition to a stainless steel boiler, a continuous water refill, and an operating pressure of 7.0 Bar, the Durasteam 22 Plus is equipped with a powerful suction device that provides an inject and extract function. This can be used with both with hot and cold water and with or without detergent. The system is fully adjustable.

This multi-function steam generator is useful for cleaning hard surfaces or fabrics in general such as carpets, rugs, or car seats, where it is essential to combine the steam injection and suction.

The Durasteam 22 Plus is designed for both domestic and professional use and is an ideal machine to use in hotels, restaurants, food outlets and pharmaceutical companies. It is useful in all environments where maximum hygiene is required. Use of the Durasteam 22 assists with HACCP self-control regulations.

How it works?

After adjusting the hot water and the quantity of the detergent, spray the solution directly onto the surface. The vacuum cleaner removes dirt and liquids without leaving excessive moisture.

TECHNICAL DATA

DURASTEAM		22	22 Plus
Vacuum type	-	Steam	Steam
Working pressure	bar	4,5	6,5
Steam temperature	°C	140	180
Total power	W	3050	4400
Max vacuum power	W	1250	1400
Boiler capacity	l	2,2	5
Steam temperature inside the boiler	°C	140	180
Boiler power	W	900 + 900	1500 + 1500
