The human side of cleaning

DURAVAC DRY QUIET 21

The dust has limited hours.

The common enemy for all environments, from work spaces to domestic is dust, which inevitably settles not only in the most visible places but also in the most hard to reach corners.

The DRY QUIET 21 vacuum cleaner with a modern functional design is the solution to combat dust and ensure the correct cleaning of hard floors and carpets in hotels, offices, and homes.

21 L

HOW IT WORKS

Cable holder hook

Integrated on the body to wind the power cable around.

Ergonomic handle

For easy and convenient transport.

Non-marking wheels

The large wheels leave no marks. These wheels ensure easy transport, even on stairs.

Quick connection

Quick bayonet fittings for quick connections of the suction hose.

Customized for you.

Depending on the job at hand, the vacuum cleaner is easily customised by choosing from a wide range of accessories to ensure maximum cleaning. On DRY QUIET 21 they are easily on hand once placed on the suction tube.

Details makes the difference.

Once the job is finished, store the vacuum cleaner by wrapping the power cord in the space provided. By doing this, the cable will always be serviceable without tangles and the DRY QUIET 21 vacuum cleaner will be ready for use.

WHITE ROOM 21

Zero contaminations.

Clean rooms such as hospital rooms, chemical and electronic laboratories and pharmaceutical companies, are environments that have specific hygienic-sanitary needs. This ensures the controlled maintenance of suspended particles in the air.

The purpose of clean rooms is to limit contamination. It is essential for the correct maintenance of these areas that sanitation is carried out constantly using suitable cleaning tools.

The WHITE DRY 21 is the vacuum cleaner developed specifically to meet these high standards.

How it works?

With all the features of a professional vacuum cleaner, the WHITE DRY 21 is equipped with a HEPA filter that ensures the collection of contaminating micro particles up to 0.3 μm , to maintain a sterile environment.

TECHNICAL DATA

DURAVAC		DRY QUIET 21
Vacuum type	-	Dry
Hopper capacity	l	21
Motors	N°	1
Vacuum power	W	1150
Motor stages	N°	1 stage
Water lift	H ₂ O	1350
Air flow	m ³ /h	220
Cooling - Vacuum type	tipo	Forced air
Voltage	V	220-240 (110 opt.)
Frequency	Hz	50/60
Nominal power	W	1000
Sound pressure	dB(A)	58
Machine dimensions (L x l x h)	mm	410x410x590
Machine weight	kg	9,5
