The human side of cleaning

DURAVAC WET & DRY 21

A single solution for solids and liquids.

Regular vacuum cleaners are often not suited to situations where it is necessary to remove liquids and large quantities of coarse dirt. These are conditions that can be easily addressed with a multipurpose vacuum cleaner for solids and liquids.

The WET & DRY 21 vacuum cleaner collects both liquid and solid dirt thanks to its powerful motor.

It is the ideal tool for cleaning garages, cellars and attics, kitchens and schools.

APPLICATIONS

HEALTHCARE

RETAIL

GOVERNMENT

INDUSTRIAL

HOW IT WORKS

VACUUM
TYPE
Wet & Dry

HOPPER
CAPACITY
21 L

Ergonomic handle

For easy and convenient transport.

Cable holder hook

Integrated on the body to wind the power cable around.

Drum

Made of impact-resistant plastic, or with an optional AISI 430 stainless steel tank.

Quick connection

Bayonet fitting for quick connection of the suction hose.

Non-marking wheels

These are quiet and and leave no marks.

The versatility you were looking for.

The WET & DRY 21 collects solid and liquid waste in one pass thanks to the squeegee nozzles supplied. When the maximum liquid level is reached, the float blocks the suction.

Customized for you.

The accessories of the vacuum cleaner are used to clean hard-to-reach spaces. On WET & DRY 21 they are always on hand for their quick and easy use.

Details makes the difference.

Once the job is finished, store the vacuum cleaner by wrapping the power cord in the space provided. By doing this, the cable will always be serviceable without tangles and the WET and DRY 21 vacuum cleaner will be ready for use.
