The human side of cleaning

DURAVAC WET & DRY 76

A single solution for solids and liquids.

Regular vacuum cleaners are often not suited to situations where it is necessary to remove liquids and large quantities of coarse dirt. These are conditions that can be easily addressed with a multipurpose vacuum cleaner for solids and liquids.

The WET & DRY 76 vacuum cleaner collects both liquid and solid dirt. It has two high-speed double stage motors or three PP motors for industrial use. In the TIP model, the vacuum cleaner is mounted on a tilting trolley to easily empty the dirt.

APPLICATIONS

HEALTHCARE

RETAIL

GOVERNMENT

INDUSTRIAL

HOW IT WORKS

Ergonomic handle

For easy and convenient transport.

Cable holder hook

Integrated on the body to wind the power cable around.

Quick connection

Bayonet fitting for quick connection of the suction hose.

Drum

Made of impact-resistant plastic, or with an optional AISI 430 stainless steel tank.

Non-marking wheels

These are quiet and leave no marks.

VACUUM
TYPE
Wet & Dry

HOPPER
CAPACITY
76 L

The versatility you were looking for.

The WET & DRY 76 collects solid and liquid waste in one pass thanks to the squeegee nozzles supplied. When the maximum liquid level is reached, the float blocks the suction.

Customized for you.

The accessories of the vacuum cleaner are used to clean hard-to-reach spaces. On WET & DRY 76 they are always on hand for their quick and easy use.

TIP-easy emptying.

With the large collection tank you can easily empty the WET & DRY 76 using the TIP version. The vacuum cleaner is housed on a practical tilting trolley which aids in emptying the tank quickly and easily.
