The human side of cleaning

DURASWEEP 130

Overcome the effort of cleaning large spaces.

There is only one way to ensure that large spaces are cleaned effectively and that is to become extremely efficient. This is why it is important to rely on the right equipment to automatically clean large surface areas with great ease.

The DURASWEEP 130 sweeper can be used in the parking lots of shopping centres, airports, railway stations, and in any other meeting place that requires a clean and well-kept environment.

APPLICATIONS

HEALTHCARE

RETAIL

GOVERNMENT

INDUSTRIAL

HOW IT WORKS

Automatic unloading

The collection bin is emptied high up for easy dispersal into waste bins.

Bag filter

This ensures a large filtering surface.

Pedal flap

Facilitates the easy collection of dirt.

Parking brake

With pedal to park on medium gradient slopes.

Frontal driving wheel

Improves the turning radius in tight spaces.

CLEANING
PATH
130 cm

HOPPER
CAPACITY
115 l

COVERAGE
PERFORMANCE
9700 m²/h

Control lever

Ergonomic and anti-vibration for brushes management.

Work lights

Powerful lights for working at night.

Electrowelded frame

Robust and reliable construction to last a long time.

Everything under control.

The DURASWEEP 130 control panel is easy, intuitive and all functions can be controlled directly from the driving position.

The seat is placed strategically so the driver can see the front brush which gives good visibility on the work area. This helps with precision work when cleaning flush with the wall.

Convenient unloading.

The emptying of the collection bin is managed directly from the control panel. You can decide whether to empty the dirt at ground level or higher up directly into waste bins.

Record pit stop.

All parts that require daily maintenance have been designed for easy access and quick cleaning. The batteries under the hood are easily accessible. The central brush can be removed without the use of tools once the side panel has been removed.

To remove the front brush, simply unscrew a hand wheel.

DISCOVER THE OTHER MODELS OF THE DURASWEEP RANGE

MANUALS

They are the non-motorized manual sweepers ideal for small outdoor environments.

50/70

Ideal sweepers for small areas. Available in battery or petrol powered versions.

115

Is the medium-sized ride-on sweeper, available in battery or petrol or diesel versions.
